

FinTrack Pro - Production Funnel Addendum

Purpose

This document adds a production-ready conversion and onboarding funnel to the existing PRD. It complements the existing authenticated user flow by defining how visitors become active users and how new organizations are successfully onboarded.

1. Marketing & Conversion Funnel

Landing Page – Present the product value proposition with a clear CTA.

Features – Showcase Dashboard, AI Chat, Reports, Share Tracking, Employee Directory, KPIs.

Benefits – Highlight faster reporting, centralized data, role-based security, AI insights.

How It Works – Explain Create Organization → Import Data → Analyze → Export Reports.

Dashboard Preview – Interactive screenshots and analytics examples.

Security & Compliance – Authentication, RBAC, Audit Logs, Encryption.

Testimonials / Success Metrics – Demonstrate business impact.

Call to Action – Request Demo / Create Organization.

Conversion Flow

Visitor → Landing Page → Features → Benefits → Dashboard Preview → Security → Testimonials → Request Demo → Create Organization → Email Verification → Admin Account → Organization Setup → Invite Team → Import Finance Data → Dashboard Ready

2. Product Onboarding Funnel

Login → Welcome Screen → Company Profile Setup → Invite Finance Team → Upload CSV / Manual Data Entry → Configure KPIs → Explore Dashboard → Generate First Report → Ask AI Assistant → Weekly Usage.

Primary CTAs

- Request Demo
- Create Organization
- Contact Sales
- Book Consultation
- Watch Product Demo

Recommendation

Insert this as a new section in the PRD after 'End-to-End User Flow'. The existing PRD describes application navigation after login, while this funnel defines visitor conversion and user activation.
